CONTENTS OF VOLUME 103

ARKERYD, L., Existence Theorems for Certain Kinetic Equations and Large Data 139

ARKERYD, L., Stability in L^1 for the Spatially Homogeneous Boltzmann Equation 151

CHEN YA-ZHE & E. DI BENEDETTO, On the Local Behavior of Solutions of Singular Parabolic Equations 319

CHIPOT, M., & D. KINDERLEHRER, Equilibrium Configurations of Crystals 237

CLARKSON, P. A., & J. B. MCLEOD, A Connection Formula for the Second Painlevé Transcendent 97

DAY, W. A., The Efficiency of Cycles of Finite Period 369

DE-FU LIU & N. D. KAZARINOFF, Local Energy Decay for the Wave Equation on the Exterior of Two Balls or Convex Bodies 279

DI BENEDETTO, E., see CHEN YA-ZHE 319

ESTEBAN, J. R., & J. L. VAZQUEZ, Homogeneous Diffusion in R with Power-Like Nonlinear Diffusivity 39

GOLSE, F., PERTHAME, B., & C. SULEM, On a Boundary Layer Problem for the Nonlinear Boltzmann Equation 81

GUSTAFSSON, T., Global L^p-Properties for the Spatially Homogeneous Boltzmann Equation 1

KAZARINOFF, N. D., see DE-FU LIU 279

KINDERLEHRER, D., see CHIPOT, M. 237

LITTMAN, W., & L. MARKUS, Exact Boundary Controllability of a Hybrid System of Elasticity 193

MARKUS, L., see LITTMAN, W. 193

MCCARTHY, M. F., On One-Dimensional Shock Waves in Composite Materials Modelled as Interpenetrating Solid Continua 169

McLeod, J. B., see Clarkson, P. A. 97

Mulone, G., see Rionero, S. 347

Perthame, B., see Golse, F. 81

Rionero, S., & G. Mulone, A Non-linear Stability Analysis of the Magnetic Bénard Problem through the Lyapunov Direct Method 347

Sulem, C., see Golse, F. 81

Tertikas, A., Existence and Uniqueness of Solutions for a Nonlinear Diffusion Problem Arising in Population Genetics 289

Vazquez, J. L., see Esteban, J. R. 39
